Get Started Digitally in Two Steps

With our ZOLLER campaign "Get started digitally" you can utilize your production potential with foresight and give the starting signal for your efficient tool management system – get started right away!

Step 01: StartUp package

Tool management with the StartUp package

When you purchase a ZOLLER presetting and measuring machine with »pilot 4.0« control, we offer you the opportunity to directly experience all the ZOLLER benefits of the smart tool management system with webTMS. Convince yourself of the ZOLLER webTMS software and benefit from its immediate utilization in your production. Simply integrate the ZOLLER »pilot 4.0« control system into your company network and webTMS is available for immediate use at every workstation in your company.

Customer network with database – z.One
in a private OnPremis cloud application

Your Benefits

1. Purchase „2 in 1“:

When you purchase your ZOLLER presetting and measuring machine with »pilot 4.0«, you will also receive the ZOLLER z.One database with webTMS software for 6 months free of charge and on loan for testing in your production. Did we convince you? Then rent webTMS with simple payment in monthly installments.

2. Innovative webTMS:

The powerful ZOLLER webTMS software forms the basis. Simply take your tool management system with you – ZOLLER webTMS can be operated via a web browser on any end device connected to your company network.

3. Detailed support:

The MYZOLLER customer portal provides your webTMS users with online training courses and videos as well as 1:1 expert talks so that the software can be used quickly and effectively in your production.

Flexible tool management with ZOLLER webTMS

Use the digital ZOLLER functions to increase efficiency in your production. With webTMS from ZOLLER, you always have your tool data at hand.

- Detailed data collection of individual components, tools and setup sheets
- Management of tool stock and tool circulation in your production
- Setting up a digital tool store with networking to the ZOLLER Smart Cabinets
- Management of the machine assignment of your fixtures
- Error-free data transfer and tool identification
- Direct access to the MYZOLLER service world

Watch the video here: "Get started digitally" with our ZOLLER TMS team.

Step 02: RoundUp package

Producing with the RoundUp package

Experience customized solutions specifically for your production: With the RoundUp package, the ZOLLER TMS team carries out the integration of one (1) CNC machine productively to the webTMS in your production. The connection to ZOLLER »zidCode 4.0« increases process reliability and therefore your productivity – get started digitally now to transfer tool data to the machine control innovatively and effectively.

Error-free data transfer – ZOLLER »zidCode 4.0«

Your Benefits

1. Tool management components:

Your ZOLLER TMS team creates 100x tool components for you, sets up 40x complete tools and introduces 5x setup sheets.

2. ZOLLER »zidCode 4.0«:

Use »zidCode4.0« on the machine of your choice for 3 months free of charge and on loan for the direct transfer of your tool data to the CNC control of your machine.

3. ZOLLER support:

The ZOLLER TMS team offers competent, first-hand expertise so that you can get started with the digitization of your tool data and experience the benefits on a first machine on site. ZOLLER is your 1:1 expert and long-term partner for system solutions
